

Storage and Data Management

Escalating quantities of data and increasingly complex business regulations mean that storage and data management solutions are paramount to business.

BT Engage IT provides expertise in Information Lifecycle Management, data protection, high availability and virtualisation to ensure manageable, efficient and compliant solutions within your business, providing the flexibility to adapt to market forces.

Building and deploying a complete end to end storage and data management strategy is paramount to achieving both business and operational IT objectives.

We can help you manage and protect data, whilst ensuring you have the agility to rapidly deploy new projects and control data growth.

BT Engage IT can work with you as an independent advisor to deliver the solutions to meet your data management challenges.

We provide a consultative approach to design, implement and support our clients IT and business objectives, such as;

- Cost Reduction - improve storage utilisation, provide proactive support and availability
- Green IT - reduce carbon footprint, costs and environmental impact
- Consolidation and rationalisation – reduce storage sprawl, simplify IT management and consolidate islands of storage
- Business Continuity - lifecycle management and back-up/restore/DR/application and document stores
- Data de-duplication - reduce storage requirements by eliminating duplicate & redundant data

Storage and Data Management competencies:

- Information Lifecycle Management
- Business continuity and DR
- Storage virtualisation
- Compliance
- High-availability
- Back-up and recovery
- Archiving

BT Engage IT act as a vendor independent advisor to your business, we can tailor our solutions to your specific business requirements and support your needs with leading supply and services:

- Storage assessment and reporting
- Pilot and proof of concept
- Workshops
- Business case justification
- Demonstration facilities

“We already had an excellent relationship with BT Engage IT and when we asked them to implement our new Storage Area Network, they were totally professional from start to finish. They have provided us with a system that supports our current storage needs and will grow to meet future business challenges.”

**Elliot MacInnes,
IT Manager,
Paternoster**

IT solutions portfolio

The BT Engage IT solutions portfolio enables us to work with clients to deliver an end-to-end capability to meet their business needs.

Our approach

Our objective is to deliver true business value and efficiencies within our clients businesses. Our combined capabilities and consultative approach ensures that they can deliver against cost and productivity demands, keeping their businesses competitive in rapidly changing markets.

Our strategic partners

We maintain a position of independent consultant and advisor to our clients, whilst holding strategic alliances and partnerships with key technology companies in the marketplace. This independence allows us to tailor the technology into solutions and services that achieve our clients' business challenges and maximise IT efficiencies.
